

Appendix B
Determination of Availability and Report of Availability Format

HEADQUARTERS, DEPARTMENT OF THE ARMY
INSTRUCTIONS FOR PREPARING A REPORT OF AVAILABILITY (ROA)

Except for Section A, the ROA is a checklist. Certain questions may require the attachment of supporting information or documents. The final approved package is designed to incorporate all data necessary to complete an outgrant on the subject property and to show the issues which were considered throughout the chain of command. Flexibility is essential, yet still yielding a final product which can be staffed and finally put in the outgrant file. The ROA format is set up so that different sections can be prepared and staffed separately and signed by different Army elements, if required.

Section A is the Determination of Availability, and, although shown first, is signed after Sections B and C have been completed, reviewed and approved. Part 1, MACOM certification is only used if the ROA is not within the approval authority of the MACOM.

Section B is the general and operational information for making property available. This Section of the ROA would usually be the starting of the outgrant process. If the outgrant is the culmination of the Master Plan process, then this section would pull information from the Master Plan and installation data. If a private party has requested the outgrant or outgrant expansion, then the office which takes the request would fill in as much information as is available and submit it for further processing.

Section C contains environmental considerations. Section C would be added to the Section B by the appropriate environmental office or offices with expertise in the various areas. This section could be divided into more than one subpart if the installation organization involves several offices which each need to sign a portion.

The ROA, with attachments, will be forwarded to HQDA, if applicable, via a cover memo which states that staffing within required MACOM offices (BRAC, environmental, legal and real estate) has been completed. The FOSL and the Environmental Baseline Study (EBS) should be prepared in accordance with AR 200-1 and DA PAM 200-1. National Environment Policy Act (NEPA) documentation should be in accordance with AR 200-2. When responding to an item for which the answer is contained in a document previously submitted to the MACOM or to HQDA (in sufficient copies), clearly identify where the document is located and reference document title, date, page, paragraph, etc.

If the ROA is required to be forwarded to HQDA, and a Record of Consideration cites Categorical Exclusion AA21 based on a pre-existing NEPA analysis, then appropriate extracts from the NEPA document are to be attached to the ROA.

SECTION A

DETERMINATION OF AVAILABILITY

Part 1. MACOM CERTIFICATION

FOR THOSE ACTIONS TO BE EXECUTED BY ACSIM OR DASA(I&H):

The information furnished in Sections B and C has been fully coordinated with BRAC, if applicable, Environmental, legal, and real estate and is accurate and complete. I recommend that the Determination of Availability be approved by signing Section A, Part 2, of this ROA.

Date

MACOM Certification Authority

I have reviewed Section C, Environmental Considerations, including all attachments, and, if this is a lease action, the draft FOSL and EBS, and have determined that the environmental considerations are legally sufficient.

Date

SIGNATURE
(MACOM Staff Judge Advocate/Counsel)

Signatures on Part 1 of Section A are not required. See the attached AMC and JMC Memorandums on Delegation of Authority dated 18 August 2014 and 7 May 2015.

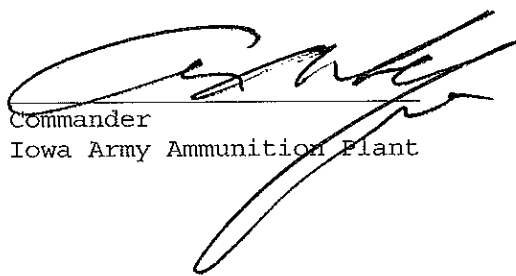

Section A

DETERMINATION OF AVAILABILITY

Part 2. APPROVAL

1. Based upon the attached Report of Availability (ROA) and its findings, which have been reviewed for accuracy and completeness, I have determined that the intended use of this property as set out in the attached Report of Availability is in the public interest or promotes national defense and is consistent with delegated authorities, applicable laws and regulations.
2. I have determined that the proposed use is compatible with the installation mission and with the installation Master Plan. (INSERT IF APPLICABLE: The use will directly support or further the installation mission.)
3. (NON-BRAC) I have determined that the property is not excess to the overall installation purpose and has not been identified as not utilized in an ICARPUS.
4. The proposed outgrant action described in the ROA is approved (subject to (INSERT ANY ADDITIONAL INSTRUCTIONS PERTAINING TO THE OUTGRANT NEGOTIATIONS OR EXECUTION AND ANY MODIFICATION TO THE ROA OR ADDITIONAL CONDITIONS WHICH MUST BE PLACED IN THE OUTGRANT DOCUMENT)).
5. I determine that the property is available for the proposed use with the restrictions as stated in the Report of Availability (and as added above) and hereby authorize negotiation and execution of an outgrant in accordance with the attached ROA and applicable laws, regulations, and policy guidance.
